

Senior Aircraft Maintenance Technician (AP Mechanic) - King Air Specialist

Advantage Aircraft Services Inc., a reputable Part 145 Repair Station, is seeking a highly skilled and experienced Senior Aircraft Maintenance Technician with a specialization in King Air aircraft. Our company is dedicated to delivering top-notch maintenance services and ensuring the highest standards of safety and compliance in the aviation industry.

Position Summary

As the Senior Aircraft Maintenance Technician (AP Mechanic) specializing in King Air aircraft, you will play a pivotal role in overseeing and performing maintenance, repair, and inspection activities on our fleet of King Air aircraft. You will lead a team of skilled technicians, ensuring that all work is completed efficiently, safely, and in accordance with FAA regulations and company policies.

Key Responsibilities:

Technical Leadership:

- Provide technical leadership and expertise in the maintenance, troubleshooting, and repair of King Air aircraft.
- Oversee and actively participate in scheduled and unscheduled maintenance tasks.

Team Management:

- Lead a team of aircraft maintenance technicians, providing guidance, training, and support.
- Coordinate work schedules and assignments to ensure timely completion of tasks.

Compliance and Documentation:

- Ensure all maintenance activities adhere to FAA regulations, manufacturer specifications, and company procedures.
- Maintain accurate and up-to-date documentation of all maintenance actions.

Quality Assurance:

- Implement and maintain a rigorous quality assurance program for all King Air maintenance activities.
- Conduct inspections and audits to ensure compliance with established standards.

Communication:

- Collaborate with other departments, including operations and logistics, to coordinate maintenance activities and minimize aircraft downtime.
- Provide regular updates on maintenance status and any potential issues to relevant stakeholders.

Training and Development:

- Identify training needs and opportunities for professional development within the maintenance team.
- Facilitate training sessions and workshops to enhance technical skills.

Qualifications:

- FAA Airframe and Powerplant (A&P) certification.
- Inspection Authorization (IA) certification.
- Extensive experience in the maintenance and repair of King Air aircraft.
- Previous leadership or supervisory experience in an aviation maintenance environment.
- Strong knowledge of FAA regulations, airworthiness directives, and manufacturer guidelines.
- Excellent communication and interpersonal skills.
- Attention to detail and a commitment to maintaining the highest standards of safety and quality.

Benefits:

- Competitive salary commensurate with experience.
- Health, dental, and vision insurance.
- Retirement savings plan.
- Opportunities for professional development and advancement.

If you are a seasoned Aircraft Maintenance Technician with a passion for King Air aircraft, possess IA certification, and have strong leadership skills, we invite you to apply for this exciting opportunity. Join our team and contribute to the success of Advantage as a leader in aviation maintenance excellence.
